

NORTHGATE LINK EXTENSION

Roosevelt Station

JULY 2012

Northgate Link Extension

The Northgate Link Extension is a key part of the regional mass transit system approved by voters in 2008.

The 4.3-mile light rail project will provide a fast, reliable option for getting through one of the region's most congested traffic areas. The Northgate Link Extension includes stations at Northgate, the Roosevelt neighborhood and the University District.

When the Northgate Link Extension opens in late 2021, it will be part of the 36 miles of new light rail lines running north, east and south from Seattle.

Roosevelt Station

Roosevelt Station, located underground just west of 12th Avenue Northeast across from Roosevelt High School, will have entrances at Northeast 65th and Northeast 67th streets. The Roosevelt Station will serve the surrounding neighborhoods and the Roosevelt business district, including Roosevelt Square.

By the year 2030, approximately 8,000 people a day are forecast to board light rail at Roosevelt Station.

Key features

- The station platform is approximately 70-90 feet below ground
- Includes two entrances with elevators, escalators and stairs at each entrance

Above ground facilities

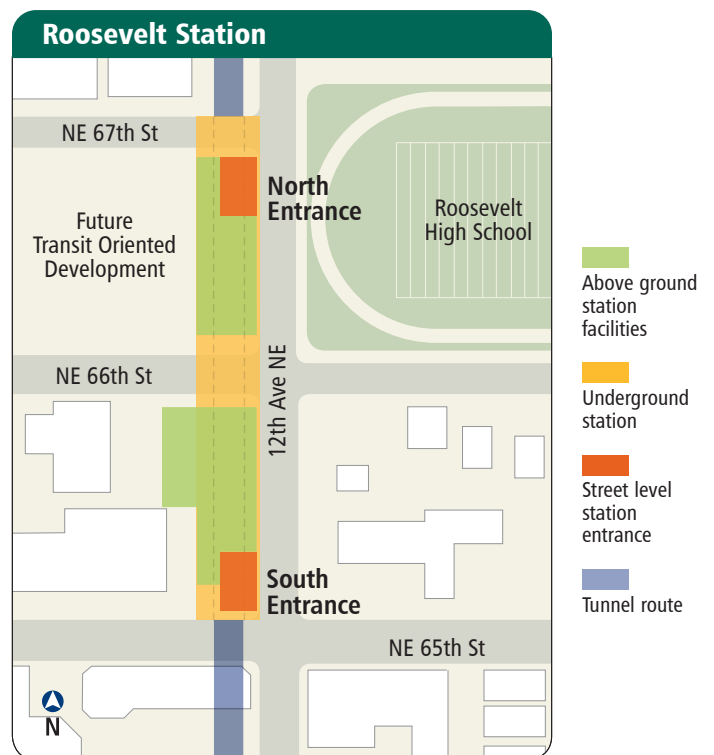

- Two entrances with pedestrian plazas
- Ticketing machines
- Bicycle storage
- Emergency ventilation structures

Final design of the Northgate Link Extension began in the fall of 2010. Sound Transit will host public meetings at

key design milestones where you can get involved. As the project moves to construction, Sound Transit will continue to keep the public informed and address any issues that may arise.

Issues for final design

- Station architectural features
- Details of pedestrian and bus connections
- Bicycle facilities at the station
- Finalizing route of tunnel
- Construction schedule and methods
- Redevelopment opportunities adjacent to station
- Public art and artist selection

Roosevelt Station Schedule

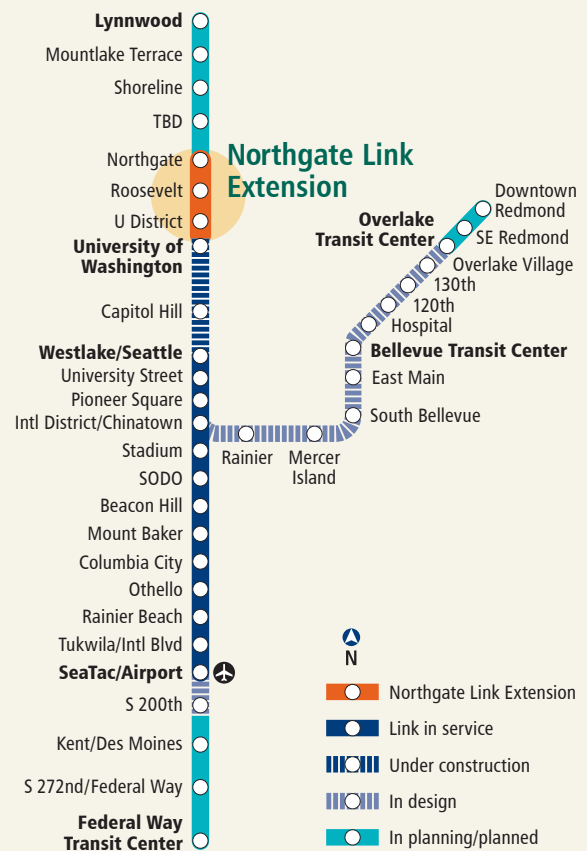

Station design	Late 2010 - Late 2013
Demolition & environmental clean-up	Mid 2012 - Early 2013
Utility relocation	Early 2013 - Mid 2013
Station excavation & tunneling (Roosevelt Station to University of Washington Station)	Late 2013 - Late 2017
Tunneling (tunnel portal to Roosevelt Station)	Late 2014 - Early 2017
Station construction	Mid 2017 - Late 2019
Systems installation/testing	Late 2019 - Late 2020
Light rail service begins	Late 2021

Schedule is subject to change

Link Light Rail System

In 2008, voters approved the Sound Transit 2 Plan, which includes 36 miles of additional light rail to form a 55-mile regional Link light rail system. Link will expand the current system from Seattle north into Snohomish County, across Lake Washington into east King County and south of Sea-Tac International Airport.
